

This is my mom, **Bonnie Sisson**, she has Stage 4 Non-small Cell Lung CANCER! All my life she has been a dedicated mother, and wife to my Dad, David. She has been active in her church to help OTHERS in need, and now I know her as a cancer patient, fighting every day to stay alive, and being the one who desperately needs help!

We, her family (2 sons and husband), are calling on all of her relatives, friends, and strangers for support! It's hard enough to beat cancer when resources are plentiful, but the family is going through rough times emotionally and financially right now. Please help us, through your donation, to provide the care that she needs to keep going.

My Mom has been battling cancer since she had a thyroid tumor removed when she was 16. Years later she was having trouble walking short distances and she went for a medical examination. She was told her heart was bad, and they didn't look any further. Fast forward to Sept. 2016 and her lung tumors were found during an exam for an unrelated medical procedure.

She has tried chemotherapy and targeted cell drugs. The drugs have not stopped the pleural effusion and chemotherapy is taking a toll on her other organs. If not for her determination and faith in God, she would not be alive today. My mom has been a devout Christian her whole life, and her faith in God is unwavering.

In this time, our family needs your prayers and support. Even if you can only donate a few dollars, it will still be helpful. Thanks to everyone that has prayed or kept my mom in your thoughts. If you donate through this Connor Moran Cancer Foundation website – any amount – your donation is 100% tax deductible and ALL of the donation will go to help my Mom. If you prefer, we have also set up a GoFundMe account for Mom: <https://www.gofundme.com/bonniesisson> where you can also donate, however there are FEES that are assessed and it is NOT tax-deductible.

Thank you in advance for your support!
